## **DIAMOND PLAN**

### **Training Course**

This training course contains a variety of enjoyable exercises and homework that will aid in the development of a strong bond between you and your pet.

#### **1) Advance Obedience Training:**

Your dog will become more obedient to you as a result of this training. It aids in the development of a stronger link between you and your pet.

Commands: **Sit, Down, Stand, Jump, Stay, Spin, Shake Hand, Salute, Release Objects, Rest, Roll, Hi-Fi, Catch, Cross (dog passes between your leg while you keep walking), Circle (dog walks a circle around you), Touch, Wave etc.** For more commands refer Instagram.

#### **2) Toilet Training:**

Instead of peeing and pooping inside the house or in a restricted location, your dog will do so in a designated area.

### 3)House Ethics Training:

With this training, your dog will be the boy you expect him to be within the house.

- It will not enter prohibited areas of the house, such as the kitchen or any other restricted location.
- It will not bark inside the house unnecessarily.
- It will not bite your valuables.
- It will not irritate your visitors by jumping and licking excessively.

**Note:** Extra requirements, in addition to those listed above, will be considered if the trainer believes it is appropriate.

### 4)Leash Training

Leash training will assist your dog in the following areas:

- Remaining relaxed during walks.
- To be able to walk without picking up rags from the environment.
- To stroll without reacting to the presence of street dogs.
- To be courteous to pedestrians.

### 5)Heel training

- We ensure that the dog walks alongside us to our left, keeping a maximum gap of 6 inches between us.
- Heel walking comes in handy whether you're walking through a crowded place or see a street dog approaching.
- The first step in teaching a dog to walk off-leash is to teach him to heel.

### 6)Socialization

We exposing your dog/puppy to a range of surfaces, situations, animals, and people without forcing or inflicting trauma to the dog/puppy.

A dog's lack of socialization can lead to a variety of behavioural difficulties, including:

- Hostility against humans, animals, or objects.
- Apprehension of people, animals, or things.

The excellent or negative behaviour habits of an adult dog are entirely dependent on socialization from puppyhood.

## 7)Car Training

For both short and long excursions, we ensure that a dog is calm, stress-free, and well-behaved inside the car.

Our trainers will teach owners how to help their dogs who are experiencing motion sickness.
